

Workshop to promote translational research on vaccines  
and to stimulate discussions, exchange and networking

## December, 3<sup>rd</sup> 2024

### Agenda

<b>Welcoming remarks</b> - Klaus Schwamborn	<b>13:00-13:05</b>
<b>Speakers (15 min presentation / 5 min discussion)</b>	<b>13:05-15:05</b>
<b>Results from a Phase I Study with an inhaled MVA-SARS-CoV-2 vaccine candidate</b> Reinhold Förster, Institute of Immunology, Medical School Hannover	<b>13:05-13:25</b>
<b>The Hitchhiker approach - a novel vaccine platform for adjuvant-free mucosal immunizations</b> Andreas Frey, Mucosal Immunology and Diagnostic, Research Center Borstel – Leibniz Lung Center	<b>13:25-13:45</b>
<b>From mouse to human - the challenge of phase 1 vaccination trials from a study site perspective</b> Mirjam Schunk, Division of Infectious Diseases and Tropical Medicine, LMU University Hospital, LMU Munich	<b>13:45-14:05</b>
<b>Unravelling the dynamics of virus-specific adaptive immunity in human airways</b> Christof Geldmacher, Institute of Infectious Diseases and Tropical Medicine, University Hospital, LMU Munich	<b>14:05-14:25</b>
<b>Live attenuated vaccines against SARS-CoV-2 - A traditional concept meets rational design</b> Jakob Trimper, Collage of Veterinary Medicine, Kansas State University	<b>14:25-14:45</b>
<b>Adjuvants and Formulation Expertise for Global Health Vaccines</b> Falko Apel, Project Manager, Vaccine Formulation Institute, Plan-Les-Ouates, Switzerland	<b>14:45-15:05</b>

### Location

This workshop will be held online. Dial-in information will be provided after registration.
